

Dear Parents and Carers,

For the children's Home Learning Project, we would like the children to find out about an astronaut of their choice who made it to space. You can choose how you wish to present the information. You may wish to create a PowerPoint, create a fact file, a mini book, pictures and captions or anyway you chose. Please bring this into school on Friday 24<sup>th</sup> January. You are invited to help as much as you like when supporting your child with this project, however please encourage your child to do their own writing!

Have fun researching together!

We look forward to reading your facts!
