

## Year 1 Maths Home Learning

### Autumn 2

Our focus this half term is to:

Represent and use number bonds and related subtraction facts within 20.

- Addition number bonds to 10 (e.g.  $1+9=10$ ,  $2+8=10$ ,  $3+7=10$ )
- Subtraction number bonds to 10 (e.g.  $10-9=1$ ,  $10-2=8$ ,  $10-3=7$ )
- Addition number bonds to 20 (e.g.  $11+9=20$ ,  $12+8=20$ ,  $13+7=20$ )
- Subtraction number bonds to 20 (e.g.  $20-9=11$ ,  $20-2=18$ ,  $20-3=17$ )

Please feel free to share what your child has done. They can share to the class or bring in their work.

If you need any support, your child's teacher will be happy to help.

#### **Out in the garden**

Play number bond tennis! You say a number they say the matching pair. If you are able to kick a football, roll a ball or use a racket at the same time, this could help your child to remember and think of it as a game!

#### **Packs of cards**

Pick out the cards that match together to make 10. Play snap or pairs with these numbers.

Or make a set of cards for them to hunt around the room and find the matching pair.

#### **Everyday activities**

Use objects from around the house e.g. drinking straws, spoons or shells to count and put into sets of 10 or 20 - how many different number sentences can you write?

Shout out numbers as you drive along e.g. you shout 6, they shout 4 back at you!

Use hands as a resource to help your child visualise the numbers.

#### **Online**

Don't forget, your child has access to:

There are other games online too.
