

Year 1 Maths Home Learning

Spring 2

Our focus this half term is to:

Placing numbers on a number line

- Order numbers to 50
- Estimate where they go on a number line
- Find a number between two other numbers
- Use the language of equal to, more than, less than, most, least

Please feel free to share what your child has done. They can share to the class or bring in their work.

If you need any support, your child's teacher will be happy to help.

Use number cards

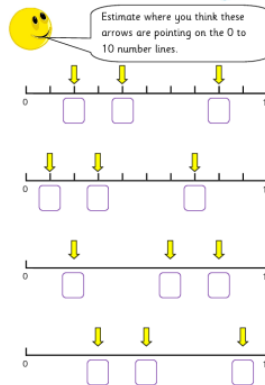

Pick two numbers. How many different numbers can you make from these digits? Can you order them? Which is the biggest? How do you know? Where would they go on a number line?

1	2	3	4
5	6	7	8

Ordering numbers

Sort these numbers into order from **smallest to largest**

25 10 3 37 84 44 57

Playing

Place some number cards on the floor. Can they move from the smallest to the largest? Can they go from the largest to the smallest? Which numbers could go in the gaps?

Greater than or less than?

Alligator. Alligator are you ready for lunch?
Look for the biggest number and crunch, crunch, crunch!
