The Headteachers are the overall responsible persons within the school however they may delegate different duties to the Business Manager, Site Manager and Governors. See the main policy for roles and responsibilities

Organisation

Each teacher is responsible for the safety of the children in his/her care. Children are received into the classroom from 8.45 am where they are supervised by a member of staff.

At playtimes and lunchtimes children should be let out onto the playground by a member of staff, after checking that the duty staff are on the playground. All children should go out at break times. Children unable to go out for medical reasons will stay on their year group corridor (for SJU children) or should go to the Infants Computing area with a friend (for SIN children) to be supervised.

Playgrounds must be adequately supervised during all break times. * See rotas.

All duty staff have a responsibility of a visual check of the apparatus on their duty days.

In the case of an accident follow the school First Aid Policy.

Teachers will collect children at the end of all break times from the playground.

At the end of the school day or following after school activities, children are released in accordance with their parent's wishes. Children being collected by taxi must go to the office. A member of staff must check the identification of the taxi driver before releasing the child/children.

Any children not collected will be supervised in the reception area until the arrival of the responsible person.

The Dining Room Assistants share responsibility for the safety in the dining hall. They should report to the appropriate person any defect in equipment. Any accidents must be reported and appropriate action taken.

The Site Manager is responsible for the good order of the boiler house, store cupboard and the safe storage of any chemicals (COSHH) and other cleaning agents. They are responsible for safe usage of cleaning materials both by themselves and other members of staff, also for good working practice, e.g. proper handling of furniture, even distribution of weight, use of step ladders etc.

Where removal is not necessary, periodic monitoring for condition will be instigated and a record maintained. The survey report is available for reference to all persons who may potentially disturb ACM's during their work i.e. contractors.

The asbestos survey is held at the reception desk and is given to all contractors as a matter of routine.
