Key Vocabulary

Fruity Surprise

Children will learn about how products are presented to customers and design their own fruit kebab packaging, with the purpose of making it attractive to consumers. They will taste different fruit, and evaluate them against their own tastes to plan and then create their own fruit kebab.

I will learn...

- ⇒ To express what I like and dislike about different fruit and describe their taste.
- ⇒ To talk about the positives and negatives of different types of packaging.
- ⇒ To design my own packaging that relates to my product and is attractive to consumers.
- ⇒ Use a knife and chopping board safety to prepare and construct my fruit kebab.
- ⇒ To evaluate both my fruit kebab and packaging against my design criteria.
