

Year 2 Home Learning

Famous Scientists!

For your Home Learning Project this term can you find out about some famous Scientists? What did they discover?

Present your results in any way you wish. A poster or a book, a fact file or a labelled picture...

Can you take inspiration from the Scientists and have fun exploring your own experiments? Look at the websites below to find some amazing ideas.

<http://www.sciencefun.org/kidszone/experiments/>

<https://sciencebob.com/category/experiments/>

Write a record of your experiments in your Home Learning book so we can find out exactly what you did!

We look forward to seeing your results! Print out any photographs and stick them in your Home Learning book. Have fun!
