

Year R maths home learningTask 2 – more/less than a number to 20.

Start with the number cards to 10 that your child made previously and put them into a pot. Ask your child to pick a secret number from the pot. Ask them to look at the number and work out 1 more and 1 less than the number. They can use their finger, their mental working out, number line (see below) or objects to find the answer. Ask them to work out 2 more/ less than a number to 10. When they are ready move them onto working with the same activity with numbers up to 20.

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20
