

## Year 2 - Computing Home Learning

For this week, we would like you to use your research skills to find out information about your chosen topic and present this on a poster. You can present your research using your typing skills on a laptop/computer or you can design one using paper and pens ☺

The research you find can be based on anything that you like. Some examples could be: favourite animals, places around the world, old and new toys, famous people etc.

### Some key things to remember:

- Our e-safety charter is available on the school website to remind you of how to stay safe online.
- Always remember to share what you are doing online with a trusted grown-up. The internet is great but there are also things on there that can make us feel worried.
- Not all information we find on the internet is reliable.

Take a look at the following website as an example:

<http://webfronter.com/rbkc/tomatospider/>
