9 o'clock

half past 3

Quarter past 5

quarter to 7

Order the times from shortest to longest.

1 hour

half an hour

5 minutes

42 minutes

shortest

longest

A machine fills one box every minute.
How many boxes does it fill in one hour?

_____ boxes

Challenge: If you can work this out, then how many boxes does it fill in $\frac{1}{2}$ an hour?

_____ boxes

Challenge

Jane sets off to school at 7 o'clock *in the car*.

She arrives at school at 25 minutes to 8.
How long was Jane's journey?

On her way home it takes her 5 minutes longer than it did to get to school. How long was Jane's journey home?

When Jane cycled to school her journey was 45 minutes.

Did it take more time for her to cycle or drive?

How many minutes difference?
